## Introduction :-

Marketing.com is an online marketing platform for these who are looking for basic needy things of daily life. In this

project of Four group members will design a perfect marketing website.

Writing basic HTML, CSS ,JAVA SCRIPT code ,designing and saving data like different tasks will be handled by each student differently independently. This website will allow all kind of products Which are used in daily life with proper dealer and vendor details.

## Project Objectivities :-

- 1) Create a website which displays all the types of daily products which are used in everyday life.
- 2) The main categories are as:
  - \* Furniture
  - \* Utensils
  - \* Clothes
  - \* Shoes

\* Daily used kitchen materials  
etc.....

\*

## System Requirements

### 1) Hard Ware

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better.
- 64 Megabytes of Ram or better.
- Windows 8(or higher if possible).

### 2) Software

- Notepad++/Html editor
- Dreamweaver
- IE 5.0 / Netscape 6.0
- Etc.....

Home page

- ➔ Home Page **contains** the products.
- ➔ Online marketing value, product color .

#### Careers :-

- ➔ Career page contains the details about the product.
- ➔ The requirements for selling will also available in this page.

#### About us :-

- ➔ In this page the details about the product or website will be shown.

#### Team Work :-

- This page designed by saumya and Adarsh

- Pictures , videos and content managed by Pavan , Brahmam.

## About the working and Management

- we are concern about every consumers choice so we have created this website “FREEDOM” which will allow the freedom to select the choice for all.
- More over a consumer will not only depend on buying things from here he/she also have the freedom to sell.
- We have a lot of people who daily work here and earn.

“Join Us for FREEDOM”

# Front Page Code of website
